Aims & Scope:
Since the start of the 21st century, changes in the healthcare delivery system and slow progress toward a cure for type 1 diabetes have shifted diabetes care priorities toward patient-centered, behavioral approaches to living successfully with diabetes. Contemporary pediatric and young adult diabetes care increasingly recognizes the important roles of many team members: patients and families, medical providers, behavioral health providers, and the emerging diabetes online community. This mini-series will review recent and emerging empirical evidence about each of these faces of diabetes care, including their contributions to diabetes care and interventions in each area to promote optimal diabetes outcomes.

Keywords: diabetes, pediatric, young adult, behavioral health

Subtopics:
The subtopics to be covered within this issue are listed below:

(1) Changing Roles of Patients and Families
   a. Jessica Markowitz PhD – Joslin Diabetes Center/Harvard University, Jessica.Markowitz@joslin.harvard.edu
   b. Kate Garvey MD – Children’s Hospital Boston/Harvard University, Katharine.Garvey@childrens.harvard.edu
   c. Lori Laffel MD MPH – Joslin Diabetes Center/Harvard University, Lori.Laffel@joslin.harvard.edu

(2) New Approaches to Providing Diabetes Care
   a. Priscilla Powell PhD – Texas Children’s Hospital/Baylor College of Medicine, Priscilla.Powell@hotmail.com
   b. Jennifer Raymond MD – Barbara Davis Center for Diabetes/University of Colorado, Jennifer.Raymond@ucdenver.edu
   c. Sarah Corathers MD – Cincinnati Children’s Hospital/University of Cincinnati, Sarah.Corathers@cchmc.org
   d. Randi Streisand PhD – Children’s National Health System/George Washington University Medical School, Rstreis@childrensnational.org

(3) Contemporary Roles of the Psychologist in Diabetes Care
   a. Jessica Kichler PhD - Cincinnati Children’s Hospital/University of Cincinnati, Jessica.Kichler@cchmc.org
   b. Jill Weissberg-Benchell PhD – Lurie Children’s Hospital of Chicago/Northwestern University, JWBenchell@luriechildrens.org
   c. Michael Harris PhD – Oregon Health & Science University, Harrismi@ohcu.edu
(4) Type 1 Diabetes in Young Adulthood
   a. Maureen Monaghan PhD - Children’s National Health System/George Washington University Medical School, Mmonagha@childrensnational.org
   b. Vicki Helgeson PhD – Carnegie Mellon University, Vh2e@andrew.cmu.edu
   c. Deborah Wiebe PhD – University of California Merced, dwiebe@ucmerced.edu

(5) Disparities in Type 1 Diabetes Outcomes
   a. Diana Naranjo PhD – Madison Clinic for Pediatric Diabetes/University of California San Francisco School of Medicine, NaranjoD@peds.ucsf.edu
   b. David Schwartz PhD – Texas Children's Hospital/Baylor College of Medicine, ddschwar@texaschildrens.org
   c. Alan Delamater PhD – University of Miami Health System/University of Miami Miller School of Medicine, adelamater@med.miami.edu

(6) The Emerging Diabetes Online Community
   a. Marisa Hilliard PhD – Texas Children’s Hospital/Baylor College of Medicine, Marisa.Hilliard@bcm.edu
   b. Kerri Sparling – SixUntilMe.com blog, kerri@sixuntilme.com
   c. Jeff Hitchcock – ChildrenWithDiabetes.com, jeffh@childrenwithdiabetes.com
   d. Tamara Oser MD – Penn State Hershey Medical Center/Penn State College of Medicine, toser@hmc.psu.edu
   e. Korey Hood PhD – Stanford School of Medicine, Hoodk@peds.ucsf.edu

Schedule:
- Manuscript submission deadline: 12/1/2014
- Peer Review Due: 1/12/2015
- Revision Due: 2/23/2015
- Announcement of acceptance by the Guest Editors: 3/30/2015
- Final manuscripts due: 4/1/2015
