Epigenetics and Pharmacology

Guest Editor: Dr. Keat Wei Loo
Email: epigeneticspharmacology@gmail.com

Aims and Scope:

Recently, epigenetics is gaining a lot of attentions among researchers and even public due to its promising results. However, most of the researches published to date are focusing on epigenetics and diseases. The proposed titles are focused on epigenetics and pharmacology in order to look on the epigenetic mechanisms in mediating drug therapy, monitoring drug response and personalized medicine. Since this is a new area of research with a lot more areas to be explored, therefore, the proposed title is believed to create an impact for Current Pharmacogenomics and Personalized Medicine.

Schedule:

Manuscript submission deadline: 30th June 2015

Peer Review Due: 31st Aug 2015

Revision Due: 30th Sept 2015

Notification of acceptance by the Guest Editor: 7th Oct 2015

Final manuscripts due: 14th Oct 2015
