Aims & Scope

Current Analytical Chemistry publishes expert reviews and original research articles on the most recent advances in analytical chemistry. All aspects of the field are represented, including analytical methodology, techniques, and instrumentation in both fundamental and applied research topics of interest to the broad readership of the journal. Current Analytical Chemistry strives to serve as an authoritative source of information in analytical chemistry and in related applications such as biochemical analysis, pharmaceutical research, quantitative biological imaging, novel sensors, and nanotechnology.

- Publishing Peer Reviewed Articles Rapidly
- Available in Print & Online
- Abstracted in SCI Expanded, JCR/Science Edition, Chemistry Citation Index and more...
- Free Online Trials for Institutions
