Aims & Scope
Current Molecular Pharmacology aims to publish the latest developments in cellular and molecular pharmacology with a major emphasis on the mechanism of action of novel drugs under development, innovative pharmacological technologies, cell signaling, transduction pathway analysis, genomics, proteomics, and metabolomics applications to drug action. An additional focus will be the way in which normal biological function is illuminated by knowledge of the action of drugs at the cellular and molecular level. The journal publishes expert reviews, original research articles and thematic issues on molecular pharmacology.

- Publishing Peer Reviewed Articles Rapidly
- Available in Print & Online
- Abstracted in SCI Expanded, JCR/Science Edition, BIOSIS Previews and more...
- Free Online Trials for Institutions
