Aims & Scope

Current Traditional Medicine is a leading international, peer-reviewed journal reviewing the current scientific research in traditional, indigenous, folk and ethnic medicine. Current Traditional Medicine covers all the aspects of the modernization and standardization research on traditional medicine of the world, e.g. chemistry, pharmacology, molecular mechanism, systems biology, proteomics, genomics, metabolomics, safety, quality control, clinical studies of traditional Chinese, Ayurvedic, Unani, Arabic and other ethnomedicine. Each issue contains updated, comprehensive reviews along with high quality original experimental research articles. It provides a bridge connecting traditional medicine to modern life science with the efforts of prominent researchers. The journal serves as a valuable resource for readers interested in solutions to existing ailments through the use of traditional medicine.
