The proposed theme: **PHARMACOKINETICS OF DRUGS IN POPULATIONS OF PATIENTS WITH CARDIOVASCULAR DISEASES**

Original articles and main authors:

1. **Pharmacokinetics of 2-oxoclopidogrel in population of patients with acute coronary syndrome.** Prof. Slobodan M. Jankovic, MD, DSc, MSc, Prim, University of Kragujevac, Faculty of Medical Sciences, Serbia
2. **Pharmacokinetics of pantoprazole in population of patients with acute coronary syndrome.** Asist. Dragana Stokanovic, MD, DSc, University of Nis, Medical Faculty, Serbia
3. **Pharmacokinetics of bisoprolol in population of patients with diabetes mellitus and hypertension.** Doc. Valentina Nikolic, MD, DSc, University of Nis, Medical Faculty, Serbia
4. **Pharmacokinetics of bisoprolol in population of patients with acute coronary syndrome.** Prof. Jasmina Milovanovic, BSc, MSc, DSc, University of Kragujevac, Faculty of Medical Sciences, Serbia
5. **Pharmacokinetics of metoprolol in population of patients with hypertension.** Prof. Slobodan M. Jankovic, MD, DSc, MSc, Prim, and Prof. Jasmina Milovanovic, BSc, MSc, DSc, University of Kragujevac, Faculty of Medical Sciences, Serbia
6. **Pharmacokinetics of vitamin D in kidney transplant patients with hypertension.** Prof. Radmila Velickovic Radovanovic, MD, MSc, DSc, University of Nis, Medical Faculty, Serbia
7. And possibly another one or two articles about clopidogrel and bisoprolol population pharmacokinetics, depending whether results could be completed in the next 2-3 months.

**The deadline for submission:** April the 1st, 2017.
