[www.drjessigold.com](http://www.drjessigold.com)

The purpose of the Special Issue on Psychopharmacology in Student Health (college and graduate) : Substance Use Disorders & Psychiatry is to bring together researchers, clinicians, educators, psychiatrists and psychology practitioners and those who have interest in late adolescent-early adult , the so-called forgotten age patients. With so much attention directed toward child psychiatry, adolescent psychiatry and even adult and geriatric psychiatry, students matriculating to college , university or community college are left to their won.

Psychopharmacology in Student Health (college and graduate): Substance Use Disorders & Psychiatry is intended to assist researchers, scientists, clinicians, colleges, universities, communities, agencies, associations and societies to keep abreast on new developments in this college age specialty .

### **Notes for Prospective Authors**

Prospective authors are invited to contribute high-quality papers by the submission deadline through the online submission system. The submission of a paper implies that the paper is original and has not been submitted for review or is not copyright-protected elsewhere and will be presented by an author if accepted. All submitted papers will be refereed by experts in the field based on the criteria of originality, significance, quality, and clarity. The authors of accepted papers will have an opportunity to revise their papers and take consideration of the referees' comments and suggestions.

### **Important Dates**
