Special Issue for Recent Patents on Drug Delivery & Formulation

Guest Editor(s): Mr. Vipan Kumar Kamboj and Dr. Prabhakar Kumar Verma

Department of Pharmaceutical Sciences, Maharshi Dayanand University, Rohtak-124001, India

TITLE: Nanoformulation based drug delivery system for diabetes

Aims & Scope:

Diabetes mellitus is a metabolic disorder that affects almost 200 million people worldwide. It is characterized by hyperglycemia due to impaired insulin action. With the progression of disease, risks of nephropathy, retinopathy, cardiovascular complications and microvascular events start occurring in the body due to hyperglycemia. Proper selection of drug, its dose and unwanted side effects are the problems associated with the treatment of diabetes. Therefore, search of newer drug molecules and drug delivery systems (DDSs) are being investigated continuously. Nanotechnology based DDSs are the hope to overcome the problems concerned with orthodox and complementary medicine for the betterment of diabetic patients.

This thematic issue will invites review and research articles on recent developments in the field of nano drug delivery systems for diabetes on the following potential topics but not restricted.

Keywords: Drug delivery systems, Nanotechnology, Antidiabetic Nano-formulations, Targeted drug delivery

Subtopics:

Potential topics include, but are not limited to:

- Targeted drug delivery system
- Polymeric based nano drug delivery
- Nano drug delivery applications
- Antidiabetic nano-formulations
- Toxicity issues for nano-formulations

Schedule:
Manuscript Submission deadline: September 31, 2018
Peer Review Due: May 31, 2017
Revision Due: June 20, 2017
Notification of acceptance by the Guest Editor: July 15, 2017
Final manuscripts due: July 31, 2017
List of contributing authors:

Dr. Anil Teotia, Indian Pharmacopoeia Commission, Ghaziabad

Dr. Harish Dureja, Department of Pharmaceutical Sciences, M.D. University, Rohtak

Dr. Sanju Nanda, Department of Pharmaceutical Sciences, M.D. University, Rohtak

Dr. D.C. Bhatt, Department of Pharmaceutical Sciences, GJUS&T, Hisar

Dr. Pawan Kaushik, Institute of Pharmaceutical Sciences, Kurukshetra University, Kurukshetra
