Call for Papers for Special Issue on: Renewable Energy Research and Applications

Guest Editors
Anuradha Tomar, HMR Institute of Technology and Management, Delhi, India
Gulshan Shrivastava, National Institute of Technology Patna, India

The purpose of the Special Issue on Renewable Energy Research and Applications is to bring together researchers, engineers, manufacturers, practitioners and customers from all over the world to share and discuss advances and developments in renewable energy research and applications. The aims to present important results to the international renewable energy community in the form of research, development, applications, design, and technology. It is therefore intended to assist researchers, scientists, manufacturers, companies, communities, agencies, associations and societies to keep abreast on new developments in their specialties and to unite in finding alternative energy solutions to current issues such as the greenhouse effect, sustainable and clean energy issues.

Subject Coverage
Topics areas include, but not limited to:

Application of Renewable Energy Research and Applications
- New Trends and Technologies for RESSs
- Policies and Strategies for RESSs
- Energy Transformation from Renewable Energy System (RES) to Grid
- Novel Energy Conversion Studies for RESs
- Power Devices and Driving Circuits for RESs
- Control Techniques for RESs
- Grid Interactive Systems Used in Hybrid RESs
- Performance Analysis of RESs
- Hybrid RESSs
- Decision Support Systems for RESSs
- Renewable Energy Research and Applications for Industries
- RESSs for Electrical Vehicles and Components
- Artificial Intelligence and Machine Learning Studies for RESs and Applications
- Computational Methods for RESSs
- Energy Savings for Vehicular Technology, Power Electronics, Electric Machinery and Control, etc.
- New Approaches in Lightings
• Public Awareness and Education for Renewable Energy and Systems
• Reliability and Maintenance in RESSs
• Smart grids and RESSs
• Safety and Security of RESSs
• Renewable Energy Systems in Smart Cities
• Future Challenges and Directions for RESSs

Notes for Prospective Authors
Prospective authors are invited to contribute high-quality papers by the submission deadline through the online submission system. The submission of a paper implies that the paper is original and has not been submitted for review or is not copyright-protected elsewhere and will be presented by an author if accepted. All submitted papers will be refereed by experts in the field based on the criteria of originality, significance, quality, and clarity. The authors of accepted papers will have an opportunity to revise their papers and take consideration of the referees' comments and suggestions.

Important Dates
Manuscripts Due by: May 31, 2018
Notification to Authors: July 1, 2018
Final version Due by: July 10, 2018
